GLAVA® will have a high profile at Nor-Shipping, a maritime conference week that attracts the entire international marine industry to Oslo.

GLAVA will be representing ISOVER at the shipping trade fair in collaboration with Saint-Gobain Marine Applications. Weber and Optimera are also under the umbrella of Saint-Gobain.

At this year's fair, GLAVA is placing a strong focus on high-quality technology and clear visual communication with the delegates

This is a meeting place with a high level of professionalism and valuable content for the industry.

Lars Fillip Kolbu, Business Unit Manager Technical Insulation.

GLAVA® will be using large touch screens to visualise its outstanding reference clients and projects, fields of application and product qualities that help to reduce energy consumption.

Kolbu believes Isover and GLAVA® Marine/Offshore, in collaboration with Saint-Gobain, offers products that are well suited for green building within the marine and offshore sectors.

This year, Saint-Gobain celebrates 350 years and there will be a large banner at the stand. There will also be celebrations to mark the Ultimate division's 10-year anniversary.

NOR-SHIPING 2015

NOR-SHIPPING 2015

Nor-Shipping expects more than 30,000 delegates to attend. It is considered one of the world's most important and well-known shipping fairs, and is an important meeting place and forum for the world's shipping industry.
